A Safety Newsletter For Kids

Produced by Your Local Fire Department & Northwest Fireflies

**Use a booster seat every time
until you are 4 feet 9
Remember, it's the law!**

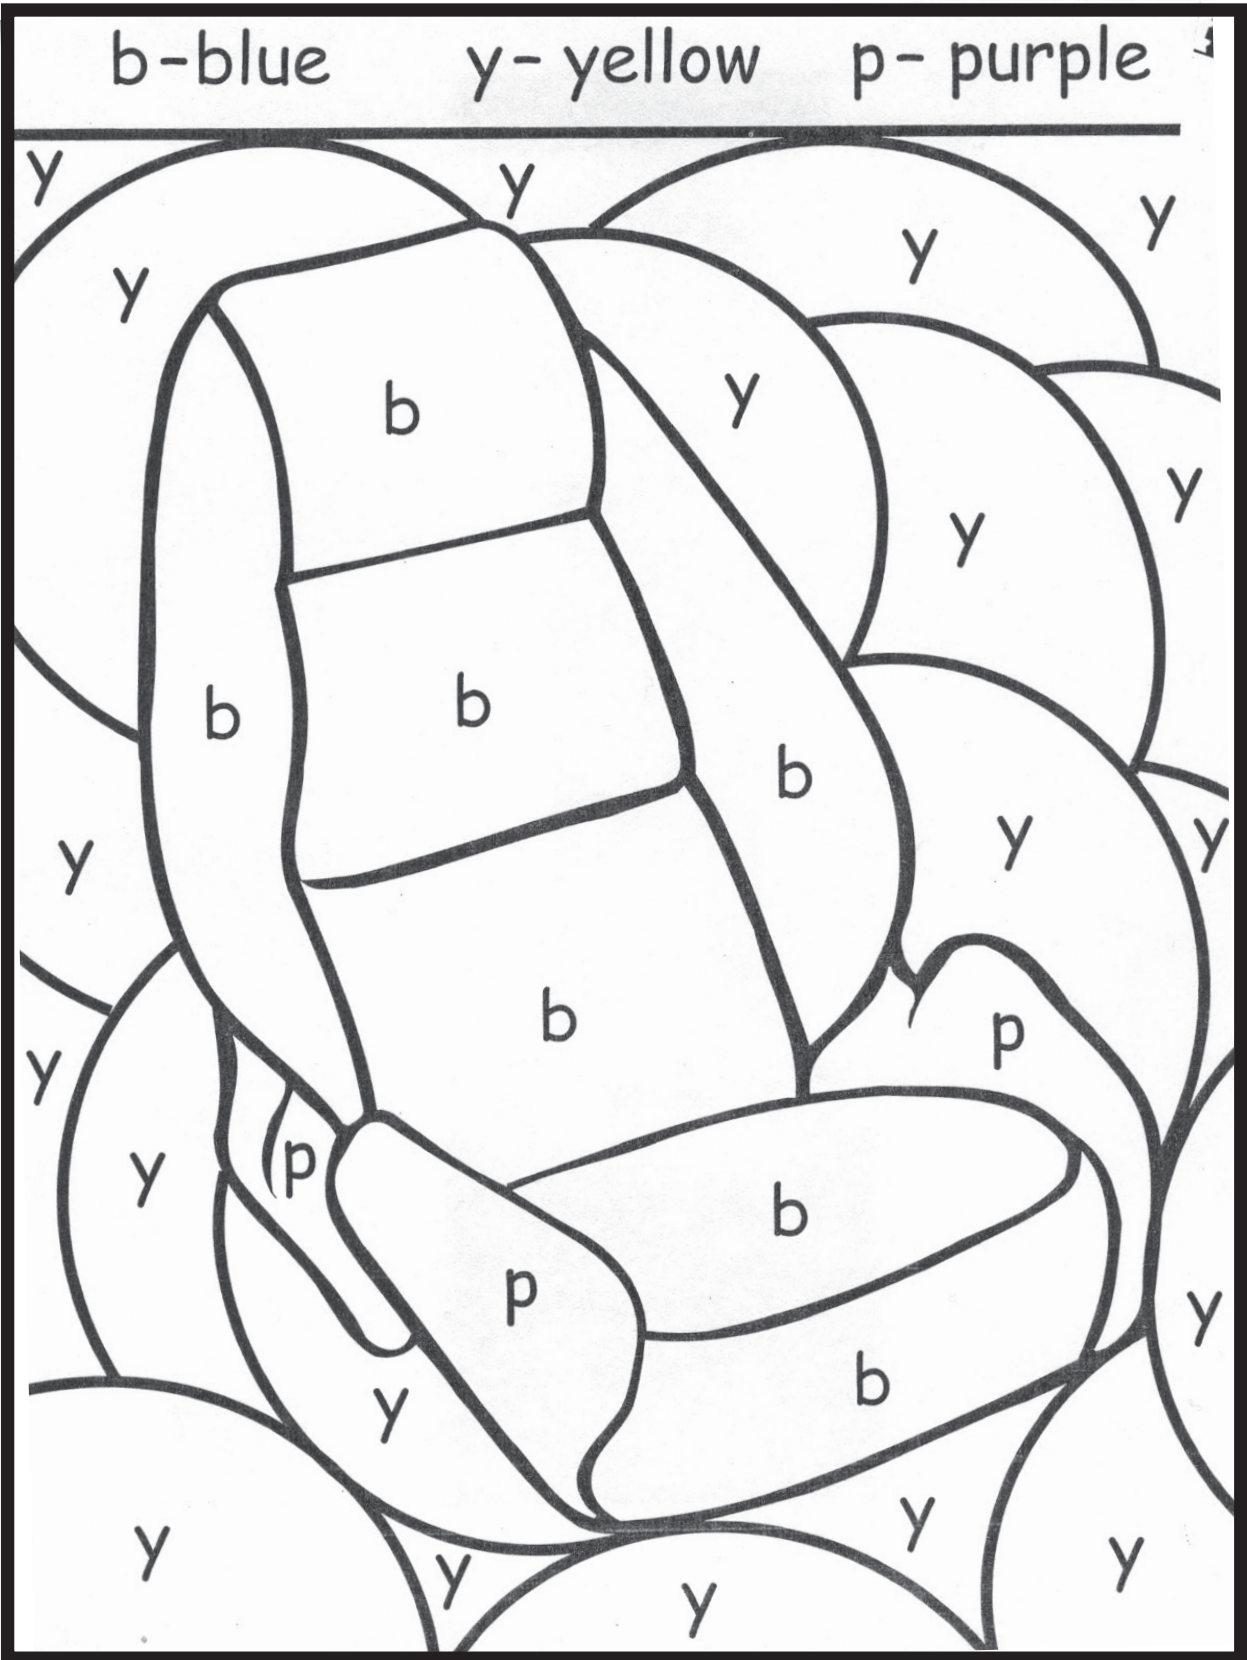

A Booster Seat lifts you up so the seat belt fits you better. That way if you are in a crash your body is protected better by the strong bones in your hips and chest! Boosters are for **BIG KIDS!** Color the picture.

Kids need to be in a Booster Seat until they are 4'9" tall. It's the right thing to do and It's the Law!

Picture courtesy of Safe Kids Worldwide

Color in the spaces to find the hidden object.

A booster seat helps you stay safe
while riding in a car.
